

2025 World Future Energy Summit

Booth: **HALL 7-7200**

Date
January 14-16, 2025

Venue
ADNEC Abu Dhabi

Dear Sir/Madam,

We warmly invite you to visit Huasun Energy at the World Future Energy Summit (WFES) 2025, held from January 14-16 at the Abu Dhabi National Exhibition Centre (ADNEC).

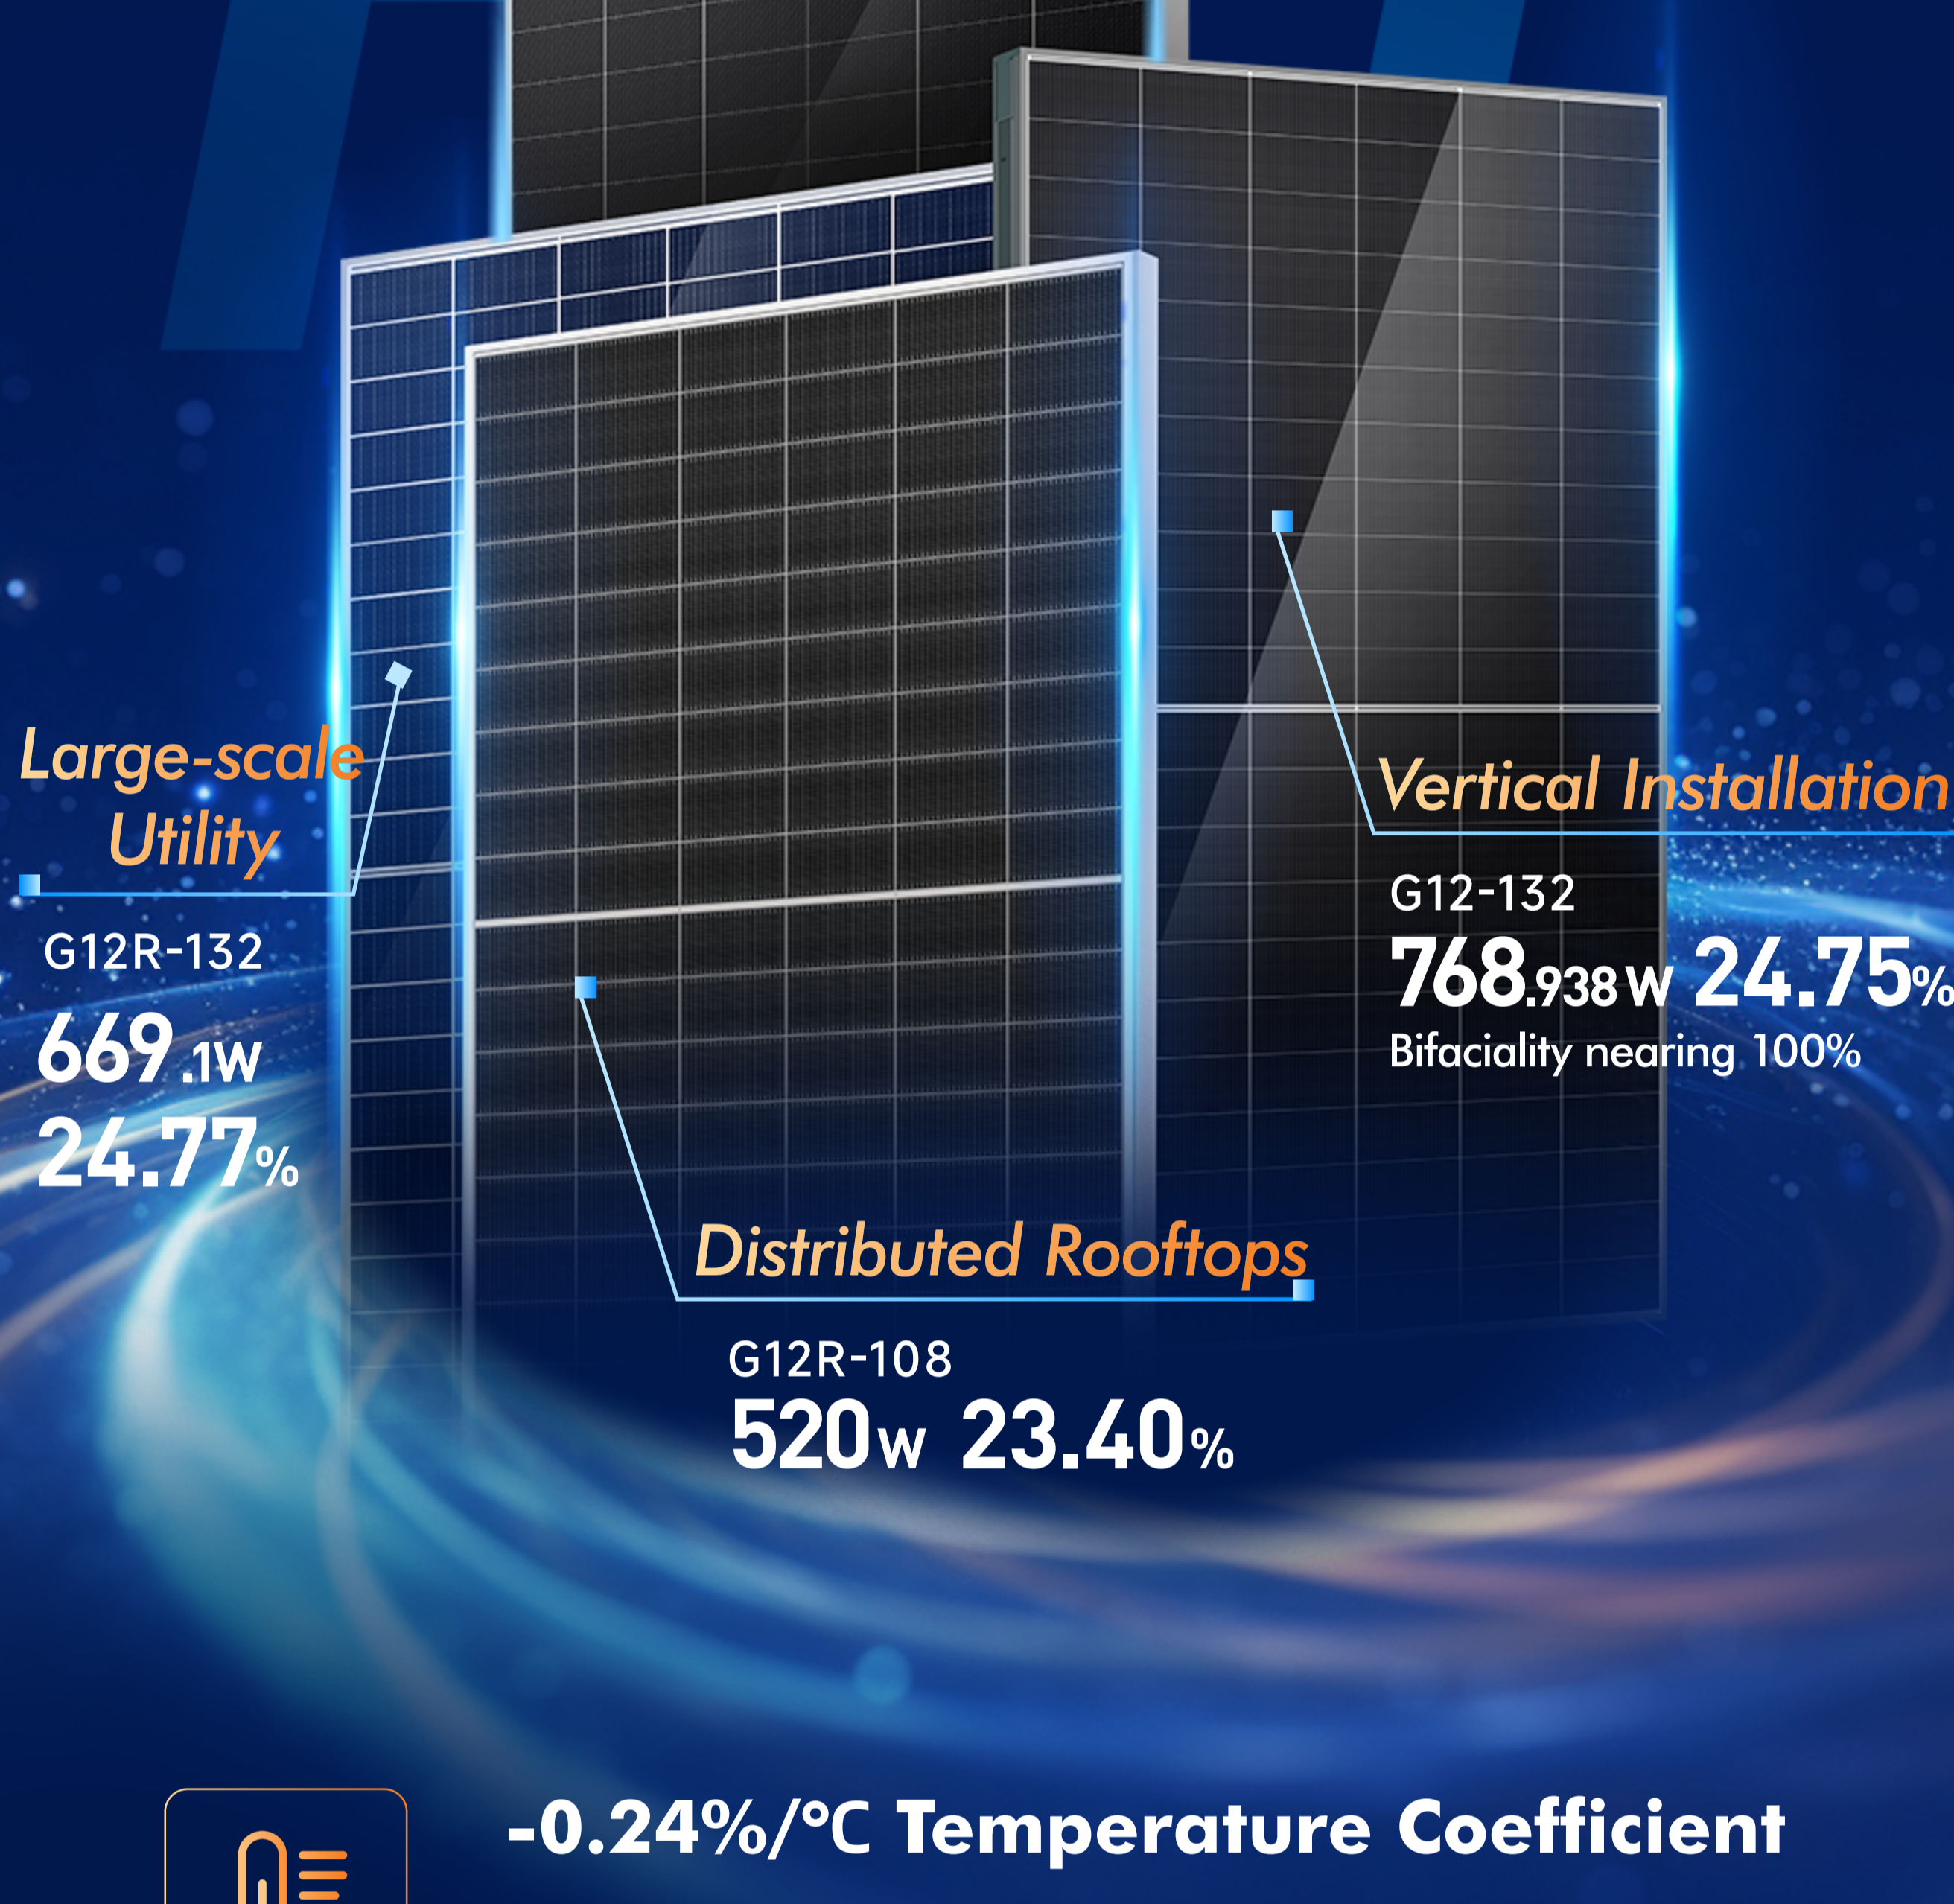

Join us at Booth Hall 7- 7200 to explore our latest innovations in heterojunction (HJT) solar technology, providing high-performance energy solutions in challenging environments like deserts in Middle East.

With over 8 GW of global shipments, Huasun continues to lead the way in advancing renewable energy. Don't miss the opportunity to see how our solutions are shaping the future of sustainable energy.

Warm regards,

Huasun Energy

Huasun OBB HJT Module For Desert Solar Excellence

-0.24%/°C Temperature Coefficient

Ensures stable power generation in extreme heat

Light Conversion Film

Provides exceptional UV resistance under intense sunlight

Butyl Sealant Encapsulation

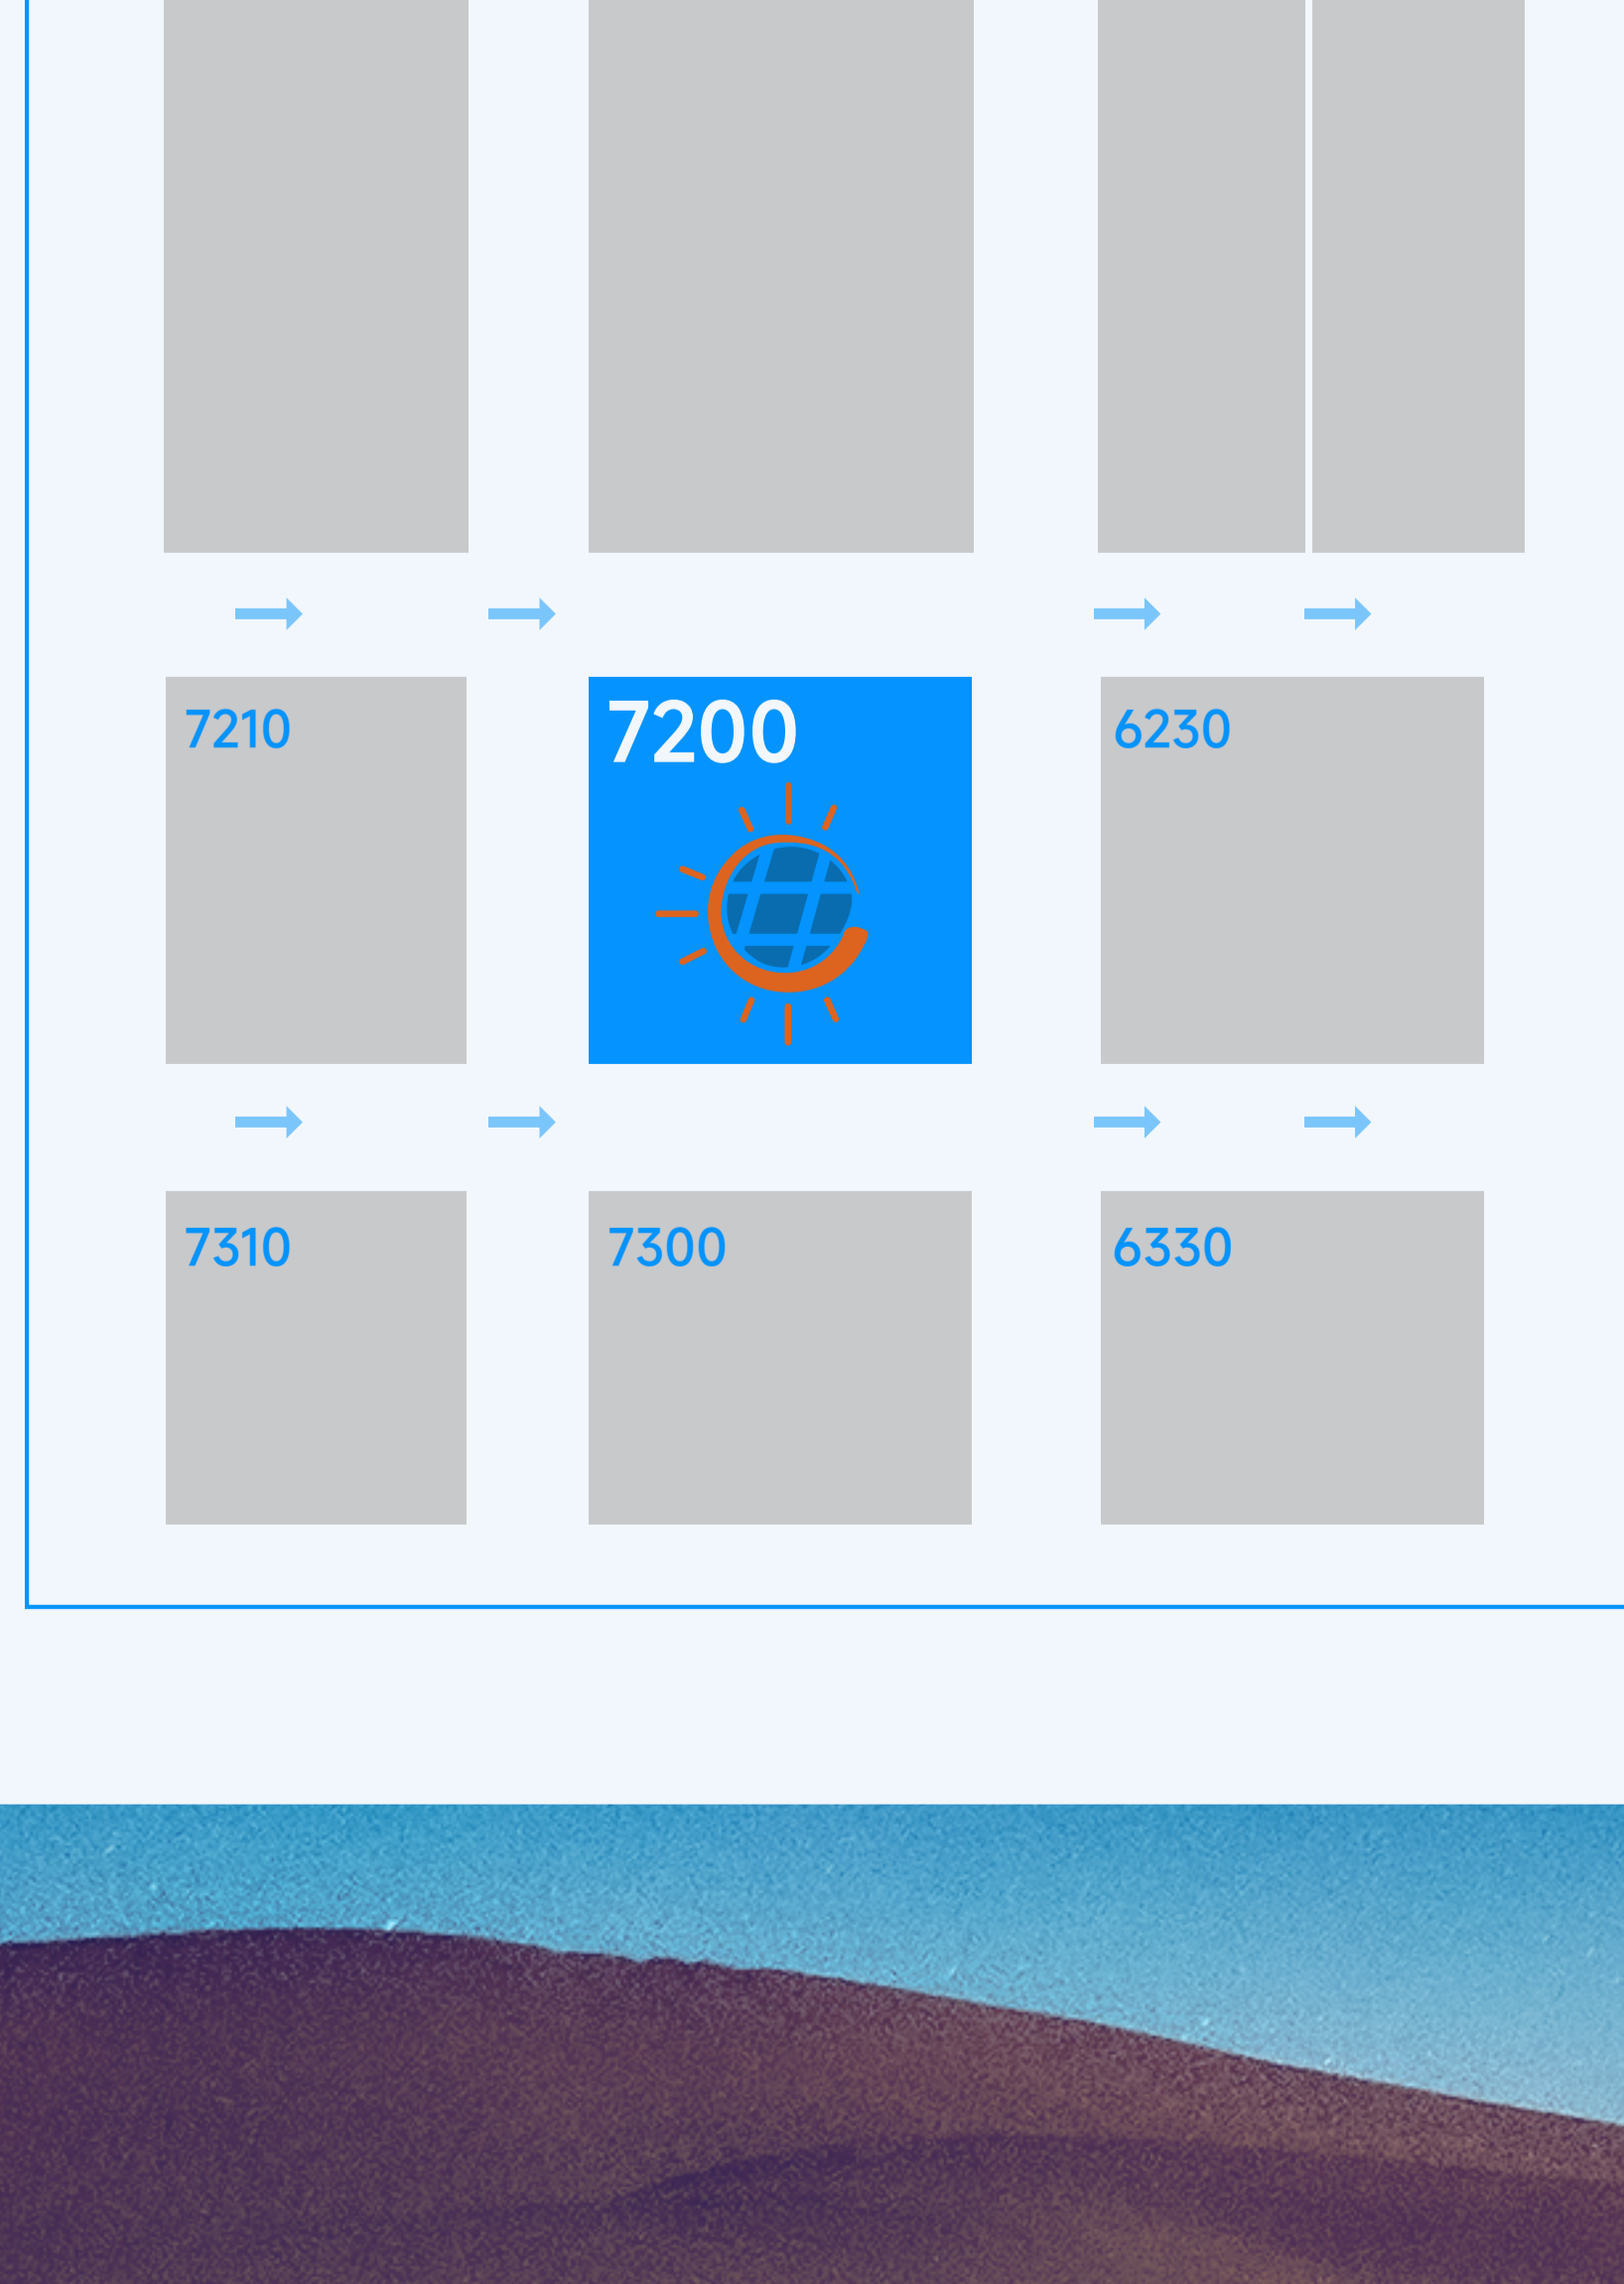

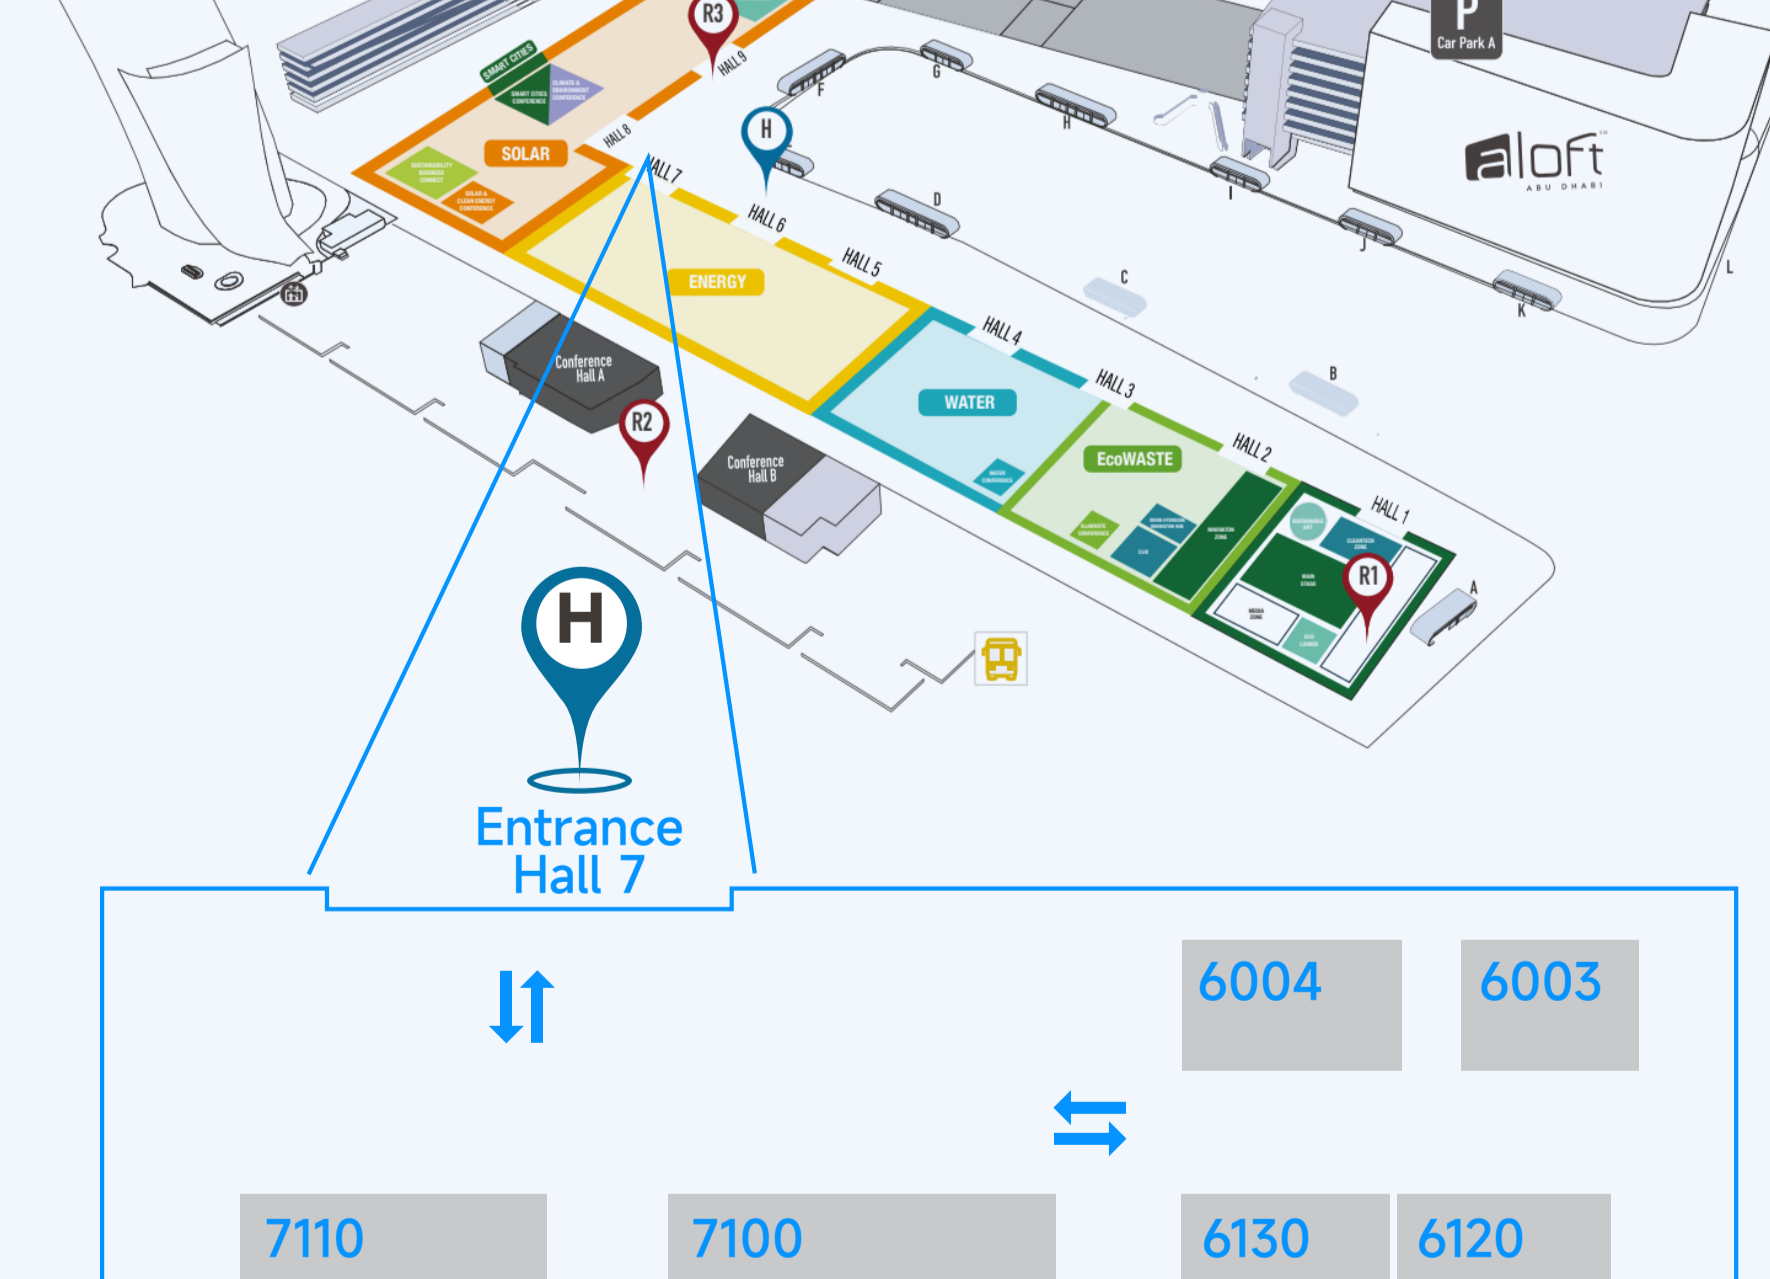

Delivers superior airtightness, defying wind and sand

Ultra-High Bifaciality

Captures more desert sunlight for additional energy gain

Find Huasun Unlock the Infinity of Heterojunction

Huasun's 2025 HJT Global Tour

Kicks Off at WFES 2025

January 14-16

HALL 7, Booth 7200

We look forward to seeing you there!
